THE NOVA RESEARCH CURRICULUM

Science and the World

Grade 1 · Term 2

Student edition

Outcomes: SC-1.4 living and non-living things and what they need, SC-1.5 the sun, day and night, and weather.

Lesson notes

SC-1.4 Living and non-living (Weeks 1–8)

1. **Sort:** a plant, a stone, a cat picture, a pencil. Living things grow, need food and water, and breathe.
2. **Needs:** plants need water, air and light; animals need food, water and air.
3. **Seed project (at home, 3 weeks):** plant a seed in a cup, water it, draw it every week.

SC-1.5 The sun, day and night, weather (Weeks 9–12)

1. **Sun:** the sun gives heat and light; never look straight at it.
2. **Day and night:** a torch and a ball show the Earth turning.
3. **Weather:** sunny, cloudy, rainy, windy; a class weather chart each day.

▶ **Try it on NovaSchool** (open **Simulations** on your dashboard):

- **Day and night** — The Earth spins round. The side facing the Sun has day. The other side has night.
- **Living or non-living?** — Look at each picture. Is it living or non-living? Tap the right button.
