THE NOVA RESEARCH CURRICULUM

Mathematics

Grade 2 · Term 1

Student edition

Term 1 outcomes: MA-2.1 numbers to 999 and place value, MA-2.2 adding and subtracting with carrying and borrowing, MA-2.3 (part) multiplication as repeated addition and tables of 2, 5 and 10. Six lessons a week. Objects → pictures → numerals in every lesson.

Lesson notes

MA-2.1 Numbers to 999, place value, ordinals (Weeks 1–4)

Week 1 reviews numbers to 100.

1. **Bundle:** bundle 10 sticks into a ten, 10 tens into a hundred. Show 243 as 2 hundreds, 4 tens, 3 ones.
2. **Place-value chart:** write numbers in H | T | O columns.
3. **Count in 10s and 100s:** 120, 130, 140 … and 100, 200, 300 …
4. **Ordinals:** line up toys: first, second, third … twentieth.

Watch out: writing "two hundred and five" as 2005; forgetting the zero (205). Always use the chart.

MA-2.2 Adds and subtracts three-digit numbers (Weeks 5–8)

1. **No carrying first (Week 5):** 234 + 152 with base-10 blocks, then in columns.
2. **Carrying (Week 6):** 248 + 135: 8 + 5 = 13 ones → trade 10 ones for a ten.
3. **Borrowing (Week 7):** 352 − 127: not enough ones → trade a ten for 10 ones.
4. **Mental sums within 50 (Week 8):** number bonds and doubles: 24 + 20, 35 − 10, 18 + 7.

Watch out: subtracting the smaller digit from the bigger one in each column (52 − 27 = 35). Use blocks until the trade is clear.

MA-2.3 (part) Multiplication; tables of 2, 5 and 10 (Weeks 9–12)

1. **Equal groups:** 3 plates with 2 sweets each = 2 + 2 + 2 = 3 × 2 = 6.
2. **Arrays:** rows and columns of counters.
3. **Skip counting:** 2, 4, 6 …; 5, 10, 15 …; 10, 20, 30 …
4. **Quick recall (5 min daily, Weeks 11–12):** flash cards; target any fact in under 3 seconds.

Tables of 3 and 4, and division, follow in Term 2.

- **Hundreds, tens and ones** — Add or take away blocks. Ten ones make a ten; ten tens make a hundred.
