THE NOVA RESEARCH CURRICULUM

Science and the World

Grade 2 · Term 3

Student edition

Outcomes: SC-2.6 jobs people do and festivals, SC-2.7 my own investigation.

Lesson notes

SC-2.6 Jobs and festivals (Weeks 1–4)

Jobs: farmer, doctor, teacher, tailor, driver, engineer, shopkeeper; each job helps others. Children interview a family member about their work. Festivals: Eid-ul-Fitr, Eid-ul-Adha, Independence Day (14 August), and festivals of other communities in Pakistan such as Christmas, Diwali and Holi; we respect everyone's celebrations.

SC-2.7 My own investigation (Weeks 5–10)

Each child picks a question (Which ball bounces highest? Does salt or sugar dissolve faster? Which cloth dries fastest?), makes a guess, tests it with an adult, records with pictures or tallies, and shares one sentence: "I found that ...".

Workbook pages

Page	Outcome	Activity
1	SC-2.6	My family-member interview (4 questions).
2	SC-2.6	Match the job to the tool.
3–4	SC-2.7	My investigation: question, guess, what I did, what I found.

Question bank
