THE NOVA RESEARCH CURRICULUM

Mathematics

Grade 3 · Term 3

Student edition

Outcomes: MA-3.5 clocks and calendar, MA-3.6 perimeter, symmetry, lines and rays, MA-3.7 data handling, MA-3.8 two-step word problems.

Lesson notes

MA-3.5 Time and calendar (Weeks 1–4)

Read analog and digital clocks on the 12-hour clock with a.m. and p.m.; add whole hours (9:45 a.m. + 3 hours = 12:45 p.m.); read dates and count days on a calendar; read a simple timetable.

MA-3.6 Geometry (Weeks 5–8)

Perimeter = the distance around a shape; add all sides (rectangle 6 cm by 4 cm → 6 + 4 + 6 + 4 = 20 cm). Lines of symmetry with paper folding. Point, line, ray, line segment. Classify triangles and quadrilaterals; circle centre, radius and diameter.

MA-3.7 and MA-3.8 Data and problem solving (Weeks 9–10)

Tally charts, picture graphs and Carroll diagrams from class data (favourite fruit, ways to school). Two-step word problems: underline the question, choose the operations, solve, check.
