THE NOVA RESEARCH CURRICULUM

Mathematics

Grade 4 · Term 1

Student edition

Outcomes: MA-4.1 numbers to 100,000, place value and rounding; MA-4.2 multiplying and dividing numbers up to 4 digits by numbers up to 2 digits.

Lesson notes

MA-4.1 Numbers to 100,000 (Weeks 1–4)

Place-value chart with ten-thousands; read and write numbers in figures and words; compare and order; round to the nearest 10, 100 and 1,000 using a number line.

MA-4.2 Multiplication (Weeks 5–8)

Grid method first (1,234 × 12 = 1,234 × 10 + 1,234 × 2), then the long-multiplication column method. Estimate before calculating (round to 1,200 × 10).

MA-4.2 Division (Weeks 9–12)

Short division by 1 digit, then long division by 2 digits with a times-table strip for the divisor. Check by multiplying back. Remainders are written as "r".
