THE NOVA RESEARCH CURRICULUM

Computer Science and skills

Grade 8 · Term 3

Student edition

Outcomes: CS-8.3 using AI tools responsibly; CS-8.4 AI ethics; RO-8.1; FL-8.1; RP-8.1; AR; PE.

Lesson notes

- **CS-8.3 (Weeks 1–4):** supervised use of one teacher-approved AI tool on a school account. Clear prompts: say the task, give details, ask for a format. Check every fact against two reliable sources. Write an AI-use note (what you asked, what you used, what you changed). Never enter personal details, photos of people or passwords. AI helps you think; it does not replace your own work.
- **CS-8.4 (Weeks 5–8):** jobs (some tasks change, new jobs appear); fairness and bias; misinformation spreading fast; deepfakes (signs: odd blinking, mismatched lips and shadows; check the source; report harmful fakes). Short opinion piece with two reasons.
- **Project (Weeks 9–12):** an assignment completed with AI support and a full AI-use note.
- **RO-8.1:** final build, test and showcase. **FL-8.1:** final business plan and a two-minute pitch. **RP-8.1:** write up and present the independent project; reflection.
- **AR, PE:** poster for a cause and the exhibition; athletics and sports day; health talk on healthy habits for life.
