THE NOVA RESEARCH CURRICULUM

History and Geography

Grade 6 · Term 1

Student edition

History (2 lessons): HI-6.1 timelines, sources and evidence; HI-6.2 (part) the Indus Valley. Geography (2 lessons): GE-6.1 map skills.

Lesson notes

- **HI-6.1 (Weeks 1–8):** BCE and CE on a timeline; primary sources (seals, coins, buildings, letters) and secondary sources (textbooks, documentaries); asking who made a source, when and why.
- **HI-6.2 (Weeks 9–12):** Mohenjo-daro and Harappa: planned grid streets, the Great Bath, drains, seals and script, trade with Mesopotamia; theories about decline. [picture: Mohenjo-daro street plan]
- **GE-6.1 (Weeks 1–12):** latitude and longitude with degrees; locating Pakistani cities by coordinates; map scale (ratio and line scale); contour lines and relief; a final map project of the local area.

Workbook pages

Page	Task
1	Timeline of your own life and of Pakistan's history (BCE and CE).
2	Primary or secondary? Sort 10 sources.
3	Indus Valley fact file.
4	Find five cities by coordinates.
5	Read contour lines; measure distance with a scale.

Question bank

#	Outcome	Question	Your answer
1	HI-6.1	A coin from 200 BCE is a … source.	primary / secondary
2	HI-6.1	A textbook written today about Mughal history is a primary source. True or false.	True / False
3	HI-6.1	Which year is earlier: 300 BCE or 100 BCE?	_____
4	HI-6.2	Mohenjo-daro is in today's …	Punjab / Sindh / Balochistan / Khyber Pakhtunkhwa
5	HI-6.2	The Indus cities had covered drains. True or false.	True / False
6	HI-6.2	Give one piece of evidence that Indus people traded with Mesopotamia.	_____

#	Outcome	Question	Your answer
7	GE-6.1	Lines of latitude measure distance north or south of the …	prime meridian / equator / tropic of Cancer / North Pole
8	GE-6.1	On a map with scale 1 : 100,000, 1 cm represents …	100 m / 1 km / 10 km / 100 km
9	GE-6.1	Contour lines close together show …	flat land / a steep slope / a river / a city
10	GE-6.1	Islamabad is at about 33° N, 73° E. True or false.	True / False
