THE NOVA RESEARCH CURRICULUM

Computer Science and skills

Grade 6 · Term 2

Student edition

Outcomes: CS-6.1 (continued) block programs with variables; CS-6.2 first Python; RO-6.1; FL-6.1; RP-6.1; AR; PE; CH-6.1.

Lesson notes

- **CS-6.1 (Weeks 1–4):** in a block tool, make a score counter using a variable; change it with events.
- **CS-6.2 Python (Weeks 5–12):** `print()`, `input()`, variables, `int()`; arithmetic; `if` / `else`. Programs: greeting, simple calculator, "Is the number even?" Use a browser-based Python editor; no installation needed.
- **RO-6.1:** combine lever, pulley and gear in a cardboard crane; test and improve.
- **FL-6.1:** make a 4-week saving plan; compare unit prices of two pack sizes.
- **RP-6.1:** second mini-research: question, two sources, summary of half a page.
- **AR, PE, CH-6.1:** colour wheel and painting; cricket tactics and fitness retest; health talk on sugar; goal setting and a teamwork project.

Workbook pages

Page	Task
1	Score-counter plan.
2–3	Write and trace five Python programs.
4	Crane test record.
5	Saving plan and price comparison.
6	Research summary.

Question bank

#	Outcome	Question	Your answer
1	CS-6.1	A variable is used to …	draw shapes / store a value that can change / end a program / connect to Wi-Fi
2	CS-6.2	What does `print(3 + 4)` show?	3 + 4 / 7 / 34 / an error
3	CS-6.2	`input()` always gives text; use `int()` to make it a number. True or false.	True / False
4	CS-6.2	Which line checks if n is even?	if n = 2: / if n % 2 == 0: / if n / 2: / if even(n)
5	CS-6.2	Write a program that asks for a name and says hello.	_____

#	Outcome	Question	Your answer
6	RO-6.1	A pulley helps to …	lift loads more easily / store electricity / measure time / cut paper
7	FL-6.1	1 kg for Rs 300 or 500 g for Rs 160 — which is cheaper per kg?	1 kg for Rs 300 / 500 g for Rs 160 / the same
8	RP-6.1	A good research summary uses your own words. True or false.	True / False
