THE NOVA RESEARCH CURRICULUM

History and Geography

Grade 6 · Term 2

Student edition

Outcomes: HI-6.2 Gandhara; HI-6.3 (part) arrival of Islam and the Ghaznavids; GE-6.2 Earth's structure and landforms.

Lesson notes

- **HI-6.2 Gandhara (Weeks 1–4):** region around Peshawar, Swat and Taxila; centre of Buddhist learning and art; Taxila was an ancient centre of learning. Gandhara art mixed local and Greek styles. Visit the Taxila or Peshawar Museum online.
- **HI-6.3 Arrival of Islam (Weeks 5–8):** Muhammad bin Qasim reached Sindh in 712 CE; Debal and Multan. Arab traders had come earlier along the coast. How Islam spread through traders and Sufis.
- **HI-6.3 Ghaznavids (Weeks 9–12):** Mahmud of Ghazni; Lahore became an important city; the scholar Al-Biruni wrote about the region; the poet Firdausi wrote the Shahnameh.
- **GE-6.2 (Weeks 1–12):** layers of the Earth (crust, mantle, outer core, inner core). Tectonic plates; the Indian plate pushing into the Eurasian plate formed the Himalayas and Karakoram. Earthquakes (2005 Kashmir earthquake) and volcanoes. Landforms: mountains, plateaus (Potohar, Balochistan), plains (Indus plain), deserts (Thar, Cholistan). Earthquake safety: drop, cover, hold on.

  ▶ **Try it on NovaSchool:** How tectonic plates move — open **Simulations** on your dashboard.

Workbook pages

Page	Task
1	Map: mark Taxila, Peshawar, Swat.
2	Timeline: 712 CE to the Ghaznavids.
3–4	Label Earth's layers; plate-boundary diagram.
5	Map: mark one mountain range, plateau, plain and desert in Pakistan.

Question bank

#	Outcome	Question	Your answer
