THE NOVA RESEARCH CURRICULUM

Computer Science and skills

Grade 6 · Term 3

Student edition

Outcomes: CS-6.4 AI literacy and a project; CS-6.2 Python project; RO-6.1; FL-6.1; RP-6.1; AR; PE; CH-6.1.

Lesson notes

- **CS-6.4 What AI is (Weeks 1–4):** AI is software that learns patterns from examples (data) to make predictions. Everyday examples: voice assistants, map routes, spam filters, video suggestions. Unplugged activity: sort picture cards to "train" a classmate.
- **CS-6.4 Data, mistakes, safe use (Weeks 5–8):** AI can be wrong; biased data gives unfair results; always check facts; never share personal details with chatbots; AI does not replace your own work. No student accounts on AI tools in Grade 6; the teacher demonstrates only.
- **Project (Weeks 9–12):** Python quiz program using `input`, `if/else` and a score variable.
- **RO-6.1:** simple-machine challenge and showcase. **FL-6.1:** needs-and-wants budget; class market-day plan. **RP-6.1:** year project with data and a poster. **AR:** Islamic geometric patterns. **PE:** athletics, sports day, sleep and screen-time health talk. **CH-6.1:** service project and reflection.

Workbook pages

Page	Task
1	Spot the AI: 10 everyday examples.
2	Is this answer right? Check three AI claims against a book.
3–4	Python quiz plan and code.
5	Budget and market-day plan.
6	Research poster plan.

Question bank

#	Outcome	Question	Your answer
1	CS-6.4	AI learns patterns from ...	magic / data (examples) / electricity only / the keyboard
2	CS-6.4	AI is always correct. True or false.	True / False
3	CS-6.4	Which is an example of AI?	a ruler / a spam filter / a light switch / a pencil
4	CS-6.4	You should tell a chatbot your home address. True or false.	True / False
5	CS-6.4	What can happen if training data is unfair?	_____

#	Outcome	Question	Your answer
6	CS-6.2	`score = score + 1` does what?	sets score to 1 / adds 1 to score / deletes score / prints score
7	FL-6.1	Which is a need?	a video game / food / a new phone case / sweets
8	RP-6.1	A poster should show your question, method and findings. True or false.	True / False
